**Believe Teutonic Propaganda is
Trying to Influence Wilson**Next Step of United States in International Question is
Undecided Says President

By Robert J. Bender

Washington, Jan. 5.—(By United Press)—With the door of peace swinging uncertainly deep annoyance was expressed in official circles. It is believed a Teutonic propaganda is under preparation to influence this government's next move.

For the last three days everyone has been wondering what will be this country's next step. President Wilson and Secretary Lansing say nothing whatever about it. They still are acting in secrecy.

The President admitted however, that he did not know what action he would take. He has confided to no one except Col. House what is in his mind.

**Father of Lewis Will Clear Name
Of Son of Murder If Possible**Wealthy Pittsburgh Parent Will Leave Nothing Undone
to Capture Real Murderer

Pittsburgh, Jan. 5.—(By United Press)—The name of Bernard W. Lewis is to be cleared if possible of any connection in the murder of Maizie Colbert. Wenman A. Lewis, father of the spendthrift young broker, has started an investigation with the hope that his suicide was one of hysteria. The elder Lewis wants it known that his mind is absolutely open and that in his heart he knows that his son's connection with the murder was not a gross one. The fortune of the wealthy coal baron will be spent in every effort to bring about the truth.

Mrs. Bernard Lewis, wife of the young man, is still prostrated by her husband's act. Since their estrangement she has made her home with her mother Mrs. Joseph Fowell, on Beechwood Boulevard. Lewis has been in Pittsburgh very little since the estrangement.

**Firemen Busy Preparing to Put
On Fine Home Talent Comedy**Expert from New York is Making Rapid Headway in
Coaching Amateurs

Prof. Charles A. Woodin, the New York theatrical artist, who will be in charge of the show being arranged for by Clearfield Fire company No. 1 for the purpose of raising a part of the purchase price for their new \$3,500 auto chemical truck, which will arrive in Clearfield in the next few weeks, is hard at work whipping his cast into shape, practice being regularly each night in firemen's hall.

The young people have responded nobly to the firemen's appeal for help and a most competent corps of young men and young ladies have essayed the different parts and are making good in a manner to greatly encourage their teacher.

The play is entitled "The Toastmaster," and will be acted by a cast of ten people, supplemented and strengthened by a chorus of forty.

The play will be interspersed with plenty of singing and dancing and all who attend will more than receive their money's worth in entertainment. The fire boys need this new equipment.

**Buffalo Bill And Wild West Films
Have "Advertised" America**Europeans, However, Have Gained Wrong Impressions
From Circus and "Movies."

By John H. Hearley
(United Press Staff Correspondent)
Rome, Dec. 3.—(By Mail)—Buffalo Bill's Wild West has "advertised" America throughout Europe. His circus, playing frequently to European spectators, has left a trail of false impressions behind it. The American "movies" here only emphasize them.

The case of Madame Montre interviewed today in a Roman boarding house is by no means uncommon. She is a well-known writer and literary woman.

"O, you are an American!" she began. "I am so glad to meet you, or I am making a scientific study of America."

"I was recently presented to some people from a state called Indiana. Really they didn't look so much like Indians. Of course, their manners were a little off."

"It must be very difficult for one to live in the states. The constant clash of the American and the Indian civilization is undoubtedly a nerve-racking annoyance."

Of course, the poor Indians really did give a civilization to the world. They were a simple and a natural people, having a real art and a real literature.

"The Indian at least has blood and machine oil in his veins. Nature comes savagely to the rescue."

**PRIZES AWARDED
TO WINNERS OF
SCHOOL EXHIBIT**Co-Operation of Business Men,
Press, Co Superintendent and
Farm Agent Made It Possible

PRIZES WELL DISTRIBUTED

The first Annual School and Agricultural Exhibit ever held in Clearfield county was staged in the High School building, Clearfield, Pa., during Institute week, December 18-22, 1916. Practically everyone who attended the exhibit expressed surprise at the extensiveness of the display. In addition to the large number of agricultural exhibits sent in by the schools and granges, there were a large number of exhibits sent in by individual farmers. The entire exhibit thus represented the cooperative efforts of schools, individuals and granges. The agricultural display comprised exhibits from nineteen townships of the county.

The possibility of winning cash premiums was not responsible for attracting the large number of exhibits. Ribbons were given in recognition of best displays of different products as outlined in premium lists. About 175 such ribbons were awarded. The Bankers' Association offered a Silver Cup as a prize for the best grange display as specified in the grange circular. This cup was won for the year by Goshen Grange No. 623.

The prize for the one room rural school sending in the best combined display of school work and agricultural products was awarded to the Mt. Zion school, Lawrence township, Lillian Jury, teacher. This prize was donated by the Clearfield National Bank.

An important feature of the school and agricultural exhibit was the display of school work. Many teachers in the county showed an interest in their work by sending in some of the best work of their pupils. Children are stimulated to do their best when they know that the result of their efforts will be put on display. By another year teachers will be better able to prepare work for an exhibit because of the experience which they have had this year.

The exhibits were judged in regard to quality of work, variety of work and preparation. H. O. Crain of Philipsburg was the judge. A \$10 Library was offered to the one room rural school which had the best combined school and agricultural exhibit. Mt. Zion school in Lawrence township, taught by Lillian Jury received the library. Ribbons were awarded to the other schools receiving prizes. Schools that were competing for the library were Mt. Zion, Lawrence township, Lillian Jury, teacher, first prize; Chestnut Ridge, Pike township, Ruth McDowell, teacher; Williamsdale, Goshen township, Bernice Read, teacher; Pine Grove, Lawrence township, Ella Norman, teacher; and Pleasant Grove, Pike township, Alta Spicher, teacher were in close competition for second and third prizes.

High School exhibits—Clearfield commercial department, first prize; Brady township high school, second prize. No third prize was offered because of the great difference in the variety of exhibits.

Grammar schools—Grampian borough schools, first prize. This was a combined effort of all the teachers of Grampian borough. Drifting school, Cooper township, Martha Raymond, teacher, second prize; Grampian school No. 2, Woodward township, George Henshaw, teacher, third prize.

Primary schools, grades 1 to 5—Clearfield, first prize; Madera, second prize; Houtzdale, third prize. Individual prizes were awarded to the following persons:

Needlework—Priscilla McDonald, Sandy township, first prize; Elizabeth Grafton, second prize. A pair of Pine Grove school, Lawrence township, third prize.

Crocheting—Edna Kaufman, Banner Ridge school, first prize; Lena Turner, Waterford school, Lawrence township, second prize. A pair of Mt. Zion school, Lawrence township, third prize.

Caps—Elizabeth Grafton, second prize; Ward township, first prize; Ellen Smeal, aged 13, Plympton township, third prize.

Germany Preparing

London Jan. 5, 1917.—Germany is preparing a great offensive presumably a gigantic one on the western front designed as Germany's supreme effort. Dispatches from Paris today indicate general belief that a German blow is being prepared.

Oil Advances Again

Pittsburgh, Jan. 5.—Pennsylvania crude oil advanced to new high prices today up 10c to \$2.95 per barrel. Ragland advanced 2c and other grades 5c.

To Vote on Strike

Kansas City, Mo., Jan. 5.—The four leading brotherhood heads will take another vote whether or not to strike in the event that the eight hour law is not enforced by the railroads is the declaration of the American railroad employees' "Journal" the January issue of which was published here today.

Dies from Fall

Pittsburgh, Jan. 5.—L. M. Sterns who fell from the 20th floor of the Oliver building yesterday afternoon died today at the Allegheny General hospital. For several hours it was believed that he would live but it developed that he was seriously injured. He slid off the window sill where he was standing to file documents in a cabinet and fell presumably when something startled him.

A CORRECTION

In the advertisement of Brown's Boot Shop last evening there appeared an item of Men's Four Buckle Arctics for \$1.50. This was a typographical error. The price should have been \$2.50.

ville school, Lawrence township, second prize.

Sophia Norak, age 13, Hawk Run school, Morris township, third prize.

The credit for whatever degree of merit the exhibit may have possessed is due very largely to the splendid spirit of cooperation shown by those who labored to give the school and grange display a success. Equal credit is due to those who sent in exhibits to compete in the class set apart for individual exhibitors.

However the display was only made possible through the generous financial support of the following banks and business men of Clearfield.

Bankers' Association	\$25.00
Clearfield National Bank	10.00
Kurtz Bros	10.00
Leitzinger Bros.	10.00
Louis Shapiro	5.00
A. W. Leonardson Co.	5.00
Ross & Woods	5.00
Sheeder's Music House	5.00
Orcutt & Buchanan	5.00
George M. Rosser	2.00
Ralph Jordan	2.00

These generous subscriptions together with the liberal support of the press were vital factors in making this exhibit a success.

The results attained, or in other words, the good accomplished is, in the final analysis, the only legitimate reason for engaging in an activity of this kind. The Livestock show has been an important factor in the rapid and substantial livestock development in Denmark, as well as in many sections of our own country. Teachers and visitors from all parts of the county agreed upon the great educational and inspirational value to be derived from the exhibit.

Aside from this a direct financial gain should result through the standardizing effect of such an exhibit to say nothing of the opportunity afforded to locate good seed of various kinds.

These factors have been responsible for the growth of farm products in other counties of the state. The principle on which they are based is a constructive one. Constructive effort if properly directed, is never wasted effort.

HAVE LITTLE HOPE FOR HIS RECOVERY

"W. C. Helmbold, senior member of the insurance firm Helmbold & Stewart, suffered a stroke of apoplexy early this morning and is now lying at the point of death in his apartment at Hotel Dimeling."

Mr. and Mrs. Helmbold as has been their custom for their home in Curwensville when winter set in and took up their quarters at The Dimeling. They spent the Christmas with their son in Pittsburgh, Mrs. Helmbold remaining a few days visit while her husband returned to his home here.

Mr. Helmbold retired as usual last night and as he had been accustomed to getting up between 7 and 8 o'clock each morning when the maid in charge of the floor on which the apartments are located reported to the landlady that his room was still locked at 10:30 a. m., Helmbold was notified and on going to the room found the door locked from the inside with the night latch. Realizing that something was wrong, Mr. McGinnis forced the door and discovered Mr. Helmbold lying on the floor of the bathroom in an unconscious condition.

Dr. Stewart, the house physician, was summoned and found that Mr. Helmbold had suffered a heavy stroke of apoplexy and that his recovery from its effects was very doubtful. The doctor has been in constant attendance, being called and shortly after dinner stated that the patient commenced to show signs of rallying but he has thus far failed to regain consciousness.

Mrs. Helmbold, who is expected home tomorrow after an appraisal of her husband's condition and with her son will arrive in Clearfield this evening.

Mr. Helmbold had been in failing health for several years but of late had appeared to be on the mend and his sudden fall was a sad shock to his friends and business associates.

**FREE AFTER FORTY
YEARS OF LIFE
IN SOLITUDE**Jesse Pomeroy, Noted Criminal
Holds Record For Longest
In Solitary Confinement

CONVICTED OF TWO MURDERS

Boston, Mass., Jan. 5.—After more

than 40 years spent in solitary confinement, Jesse Pomeroy, the noted "lifter" at the Charleston prison, is to be permitted once again to look upon the faces of his fellow men.

As a result of many years of public agitation a special council committee was appointed some time ago to investigate Pomeroy's case. This committee has now prepared a report to the governor recommending that certain privileges be granted with a view to ameliorating the condition of the celebrated prisoner's incarceration.

Jesse Pomeroy is considered the most extraordinary life prisoner in confinement in the United States. So far as is known he is the only inmate of the entire history of the country who has spent 40 years, or even an appreciable portion of that period, in solitary confinement. The experience of his imprisonment were recounted by the court which sentenced him. His cell is undoubtedly the strangest in America. Despite this fact, on a dozen occasions since his entrance there, with supernatural cunning, he has devised plans of escape, and in view of constant watching has managed to carry them out to an advanced stage of execution.

The history of the crimes of the door of Pomeroy is one of the most atrocious, committed by a boy only 15 years of age. Born in Connecticut in 1850, according to his own story his life, Pomeroy was convicted of two brutal murders in 1874 and 1876, he began his sentence in prison.

It was in 1872 that he married his mother to South Boston, the site of most of the crimes laid at his door. At that time he had already established a reputation as a "bad boy" and had served some time in a reformatory.

J. A. Stock left today for the funeral of a friend.

Vincent J. Stock will leave tonight for Detroit, Mich., where he will enter the Michigan State Normal school.

**Women Government Takes Oregon

Councilmen of Sterner Sex

Umatilla Ore., Jan. 5.—(By United Press)—Umatilla's city government passed this week into the hands of a woman administration. From Mrs. Laura Starcher, mayor, down to the police department all officials are of the gentler sex except two lonely males who must serve as "holdovers" in the council.

E. E. Starcher, railroad telegrapher, handed over the robes of his office to his wife. He vacated the little room where he has directed the town's destinies for many months, and the madam took the helm. One of Mrs. Starcher's first acts will be to name the woman police force.

"A woman can do the work," said Mayores Starcher, "better than any man." She added that if any obstreperous lawbreaker invaded Umatilla during the female regime, a man or something would be designated to handle the situation, under the chiefess.

On taking office Mrs. Starcher promised the city a business administration, and said she would endeavor to make her husband's record failed to attempt.

FAIR PLAY

The annual license court of Clearfield will convene in the near future and before it is over the customary quarrels and misunderstandings will take place between those who favor and those who are opposed to the granting of license. So far as the petitioning for license and remonstrating against it is concerned the rights of both parties are equal in the wording of the law. A careful reading of the following paragraph of the Brooks High License Law will show this;

"The said court of quarter sessions shall hear petitions from residents of the ward, borough or township, in addition to that of the applicant, in favor of and remonstrance against the application for such license, and in all cases shall refuse the same whenever, in the opinion of the court having due regard to the number and character of the petitioners for and against such application, such license is not necessary for the accommodation of the public and the entertainment of strangers and travelers etc."

The law plainly gives those in favor of the license the right to sign the petition of the saloon keeper and likewise the law gives every other resident of the ward, borough or township the right to oppose the granting of any particular license by signing a remonstrance. Why then should there be any ill feeling over the manner in which a man acts with regard to the license question? If feeling simply widens the breach between the temperance forces and those inclined to believe that the regulation of the liquor traffic according to the Brooks law is the proper method. As much as we may differ on the question, personal enmity and retaliation should not enter into the question.

Unfortunately there are a few engaged in the liquor business who retaliate in a business way against men who sign a remonstrance. There are business men in Clearfield who are afraid to refuse to sign a petition for license for business reasons. Likewise there are men in the temperance forces who do not hesitate to insult men because they do not radically oppose the liquor traffic. Many a man could be persuaded to sign a remonstrance by mild reasoning who will balk and take the neutral attitude because insulting and coercive measures have been used to get his signature.

The purpose of this editorial is to point out the rights of both sides to the controversy. A great many people think that the signer of a remonstrance has no standing under the law and that the remonstrance is an instrument devised by the temperance forces to embarrass and hamper license court proceedings. Such is not the case. The right to remonstrate is the only right given to temperance adherents under the Brooks law and that right shall not be bridged.

Another purpose of this editorial is to preach fair play to all. We have heard saloon keepers damn residents because they exercised their rights under the law. We have heard cranks on the temperance question criticize men because they favored the granting of license and indulge in personalities as a result of it. On all questions men should concede to others the right to their opinions and their rights under the law. A friendly discussion over the merits of license and no license will bring definite results quicker than a warfare of words, retaliation and insulting personalities.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with a bad breath coated tongue, nasty taste or have a dull, aching head, shallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

CENTENARY OF NOTED NAVAL OFFICER

Washington, D. C., Jan. 5.—In naval circles here today was recalled as the centennial anniversary of the birth of Commander Richard Wainwright, one of the famous officers in the early days of the United States navy, and father of Admiral "Fighting Dick" Wainwright. Commander Wainwright was born at Charleston, Mass., Jan. 5, 1817, and began his career as a midshipman in the navy at the age of 14. Early in the civil war he was assigned to the command of the "Hartford" for his gallantry in the attack on New Orleans and in the passing of the Vicksburg batteries, Commander Wainwright was warmly praised by Admiral Farragut. His death occurred while he was still in command of the "Hartford," near New Orleans, August 10, 1862.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the wastes and poisons from the blood, and then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

AMERICA'S GREATEST AUTO SHOW

New York, Jan. 5. — America's greatest exhibition of motor cars and accessories, the seventeenth annual automobile show under the auspices of the National Automobile Chamber of Commerce, will open at Grand Central Palace tomorrow afternoon and continue for one week. While large automobile shows were held in London, Paris and Berlin before the war, the New York exhibition, it is claimed, will surpass them all in number of exhibitors. The exhibitors will be American manufacturers exclusively. While the show will mark the introduction of a number of new cars, mostly in the moderate price class, the main group of exhibitors will be composed of the companies whose activities have been the foundation upon which the industry has been developed.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, colds of the chest (it often prevents pneumonia).

Miss Berndetta Cole is spending a few days at the home of Mr. and Mrs. E. Evans in Osceola. Mr. and Mrs. Evans are well known here, having lived on Filberts street. Mr. Evans holding a good position with one of the coal mines in this vicinity.

One of the Progress carriers has been off duty on account of sickness. The vacancy was filled by Murry Clark. Be kind to the boys as they make every effort to get your paper to you in good time considering the lateness of the train every evening.

The Bridgeport school in Pike township, with Miss Olive King as teacher gave a rather interesting program the other evening consisting of drills, recitations, reading and dialogues, after which each scholar received candy and oranges as a Christmas treat. The school is progressing nicely and much credit is due Miss King for her pleasing manner and kind disposition toward her pupils

This January Clearance is an event of the utmost importance. It should prove tremendously interesting to every person who has winter needs to purchase and who realizes the need for practising economy. We make this statement fully realizing the broad scope of our claim. Thousands upon thousands of dollars of goods involved in this event cannot possibly be bought in the wholesale markets at prices that are now in force. It is unnecessary for us to go into further details. The mere fact that we announce this event and make mention here that values of a most extraordinary nature may be found in the very merchandise which you are planning to purchase will be all that will be needed to effect a quick and absolute clearance of the merchandise involved.

An Event of Timely Importance. An Event Providing The Unexpected Values In Dependable Furs

In announcing this fur sale we are simply following our merchandising policy. It is not necessary to mention here that furs have been advancing in price for the past year. The cause of this is very simple. The European countries are demanding great quantities of furs for use of their armies. Then again, there have been no furs imported to amount to anything in consequence of which America has been compelled to depend upon her own supplies to a very large extent. This then has meant a scarcity of dependable furs. However, in the face of these conditions we have been able to secure a stock of furs equal to any in past seasons. Here are fur scarfs, muffs and fur coats in a splendid collection of styles and in the favored furs of the season at prices that mean Sure, Substantial and Solid Savings. Below we list a few items.

\$35.00 Jap mink sets	\$19.75	\$30.00 Natural cat lynx set	\$14.95

**Believe Teutonic Propaganda is
Trying to Influence Wilson**Next Step of United States in International Question is
Undecided Says President

By Robert J. Bender

Washington, Jan. 5.—(By United Press)—With the door of peace swinging uncertainly deep annoyance was expressed in official circles. It is believed a Teutonic propaganda is under preparation to influence this government's next move.

For the last three days everyone has been wondering what will be this country's next step. President Wilson and Secretary Lansing say nothing whatever about it. They still are acting in secrecy.

The President admitted however, that he did not know what action he would take. He has confided to no one except Col. House what is in his mind.

**Father of Lewis Will Clear Name
Of Son of Murder If Possible**Wealthy Pittsburgh Parent Will Leave Nothing Undone
to Capture Real Murderer

Pittsburgh, Jan. 5.—(By United Press)—The name of Bernard W. Lewis is to be cleared if possible of any connection in the murder of Maizie Colbert. Wenman A. Lewis, father of the spendthrift young broker, has started an investigation with the hope that his suicide was one of hysteria. The elder Lewis wants it known that his mind is absolutely open and that in his heart he knows that his son's connection with the murder was not a gross one. The fortune of the wealthy coal baron will be spent in every effort to bring about the truth.

Mrs. Bernard Lewis, wife of the young man, is still prostrated by her husband's act. Since their estrangement she has made her home with her mother Mrs. Joseph Fowell, on Beechwood Boulevard. Lewis has been in Pittsburgh very little since the strange death.

Prof. Charles A. Woodin, the New York theatrical artist, who will be in charge of the show being arranged for by Clearfield Fire company No. 1 for the purpose of raising a part of the purchase price for their new \$3,500 auto chemical truck, which will arrive in Clearfield in the next few weeks, is hard at work whipping his cast into shape, practice being regularly each night in Firemen's hall.

The young people have responded nobly to the firemen's appeal for help and a most competent corps of young men and young ladies have essayed the different parts and are making good in a manner to greatly encourage their teacher.

The play is entitled "The Toastmaster," and will be acted by a cast of ten people, supplemented and strengthened by a chorus of forty.

The play will be interspersed with plenty of singing and dancing and all who attend will more than receive their money's worth in entertainment. The fire boys need this new equipment.

**Buffalo Bill And Wild West Films
Have "Advertised" America**Europeans, However, Have Gained Wrong Impressions
From Circus and "Movies."

By John H. Hearley
(United Press Staff Correspondent)
Rome, Dec. 3.—(By Mail)—Buffalo Bill's Wild West has "advertised" America throughout Europe. His circus, playing frequently to European spectators, has left a trail of false impressions behind it. The American "movies" here only emphasize them.

The case of Madame Montre interviewed today in a Roman boarding house is by no means uncommon. She is a well-known writer and literary woman.

"O, you are an American!" she began. "I am so glad to meet you, or I am making a scientific study of America."

"I was recently presented to some people from a state called Indiana. Really they didn't look so much like Indians. Of course, their manners were a little off."

"It must be very difficult for one to live in the states. The constant clash of the American and the Indian civilization is undoubtedly a nerve-racking annoyance."

Of course, the poor Indians really did give a civilization to the world. They were a simple and a natural people, having a real art and a real literature.

"The Indian at least has blood and machine oil in his veins. Nature comes savagely to the rescue."

**PRIZES AWARDED
TO WINNERS OF
SCHOOL EXHIBIT**Co-Operation of Business Men,

Farm Agent Made It Possible

PRIZES WELL DISTRIBUTED

The first Annual School and Agricultural Exhibit ever held in Clearfield county was staged in the High School building, Clearfield, Pa., during Institute week, December 18-22, 1916. Practically everyone who attended the exhibit expressed surprise at the extensiveness of the display. In addition to the large number of agricultural exhibits sent in by the schools and granges, there were a large number of exhibits sent in by individual farmers. The entire exhibit thus represented the cooperative efforts of schools, individuals and granges. The agricultural display comprised exhibits from nineteen townships of the county.

The possibility of winning cash premiums was not responsible for attracting the large number of exhibits. Ribbons were given in recognition of best displays of different products as outlined in premium lists. About 175 such ribbons were awarded. The Bankers' Association offered a Silver Cup as a prize for the best grange display as specified in the grange circular. This cup was won for the year by Goshen Grange No. 623.

The prize for the one room rural school sending in the best combined display of school work and agricultural products was awarded to the Mt. Zion school, Lawrence township, Lillian Jury, teacher. This prize was donated by the Clearfield National Bank.

An important feature of the school and agricultural exhibit was the display of school work. Many teachers in the county showed an interest in their work by sending in some of the best work of their pupils. Children are stimulated to do their best when they know that the result of their efforts will be put on display. By another year teachers will be better able to prepare work for an exhibit because of the experience which they have had this year.

The exhibits were judged in regard to quality of work, variety of work and preparation. H. O. Crain of Philipsburg was the judge. A \$10 Library was offered to the one room rural school which had the best combined school and agricultural exhibit. Mt. Zion school in Lawrence township, taught by Lillian Jury received the library. Ribbons were awarded to the other schools receiving prizes. Schools that were competing for the library were Mt. Zion, Lawrence township, Lillian Jury, teacher, first prize; Chestnut Ridge, Pike township, Ruth McDowell, teacher; Williamsdale, Goshen township, Bernice Read, teacher; Pine Grove, Lawrence township, Ella Norman, teacher; and Pleasant Grove, Pike township, Alta Spicher, teacher were in close competition for second and third prizes.

High School exhibits—Clearfield commercial department, first prize; Brady township high school, second prize. No third prize was offered because of the great difference in the variety of exhibits.

Grammar schools—Grampian borough schools, first prize. This was a combined effort of all the teachers of Grampian borough. Drifting school, Cooper township, Martha Raymond, teacher, second prize; Grampian school No. 2, Woodward township, George Henshaw, teacher, third prize.

Primary schools, grades 1 to 4—Clearfield, first prize; Madera, second prize; Houtzdale, third prize. Individual prizes were awarded to the following persons:

Needlework—Priscilla McDonald, Sandy township, first prize; Elizabeth Grafton, second prize. A pair of Pine Grove school, Lawrence township, third prize.

Crocheting—Edna Kaufman, Banner Ridge school, first prize; Lena Turner, Waterford school, Lawrence township, second prize. A pair of Mt. Zion school, Lawrence township, third prize.

Caps—Elizabeth Grafton, second prize; Ward township, first prize; Ellen Smeal, aged 13, Plympton, third prize.

Dies from Fall

Pittsburgh, Jan. 5.—L. M. Sterns who fell from the 20th floor of the Oliver building yesterday afternoon died today at the Allegheny General hospital. For several hours it was believed that he would live but it developed that he was seriously injured. He slid off the window sill where he was standing to file documents in a cabinet and fell presumably when something startled him.

A CORRECTION

In the advertisement of Brown's Boot Shop last evening there appeared an item of Men's Four Buckle Arctics for \$1.50. This was a typographical error. The price should have been \$2.50.

ville school, Lawrence township, second prize.

Sophia Norak, age 13, Hawk Run school, Morris township, third prize.

The credit for whatever degree of merit the exhibit may have possessed is due very largely to the splendid spirit of cooperation shown by those who labored to give the school and grange display a success. Equal credit is due to those who sent in exhibits to compete in the class set apart for individual exhibitors.

However the display was only made possible through the generous financial support of the following banks and business men of Clearfield.

Bankers' Association	\$25.00
Clearfield National Bank	10.00
Kurtz Bros.	10.00
Leitzinger Bros.	10.00
Louis Shapiro	5.00
A. W. Leonardson Co.	5.00
Ross & Woods	5.00
Sheeder's Music House	5.00
Orcutt & Buchanan	5.00
George M. Rosser	2.00
Ralph Jordan	2.00

These generous subscriptions together with the liberal support of the press were vital factors in making this exhibit a success.

The results attained, or in other words, the good accomplished is, in the final analysis, the only legitimate reason for engaging in an activity of this kind. The Livestock show has been an important factor in the rapid and substantial livestock development in Denmark, as well as in many sections of our own country. Teachers and visitors from all parts of the county agreed upon the great educational and inspirational value to be derived from the exhibit.

Aside from this a direct financial gain should result through the standardizing effect of such an exhibit to say nothing of the opportunity afforded to locate good seed of various kinds.

These factors have been responsible for the growth of farm products in other counties of the state. The principle on which they are based is a constructive one. Constructive effort if properly directed, is never wasted effort.

HAVE LITTLE HOPE FOR HIS RECOVERY

"W. C. Helmbold, senior member of the insurance firm Helmbold & Stewart, suffered a stroke of apoplexy early this morning and is now lying at the point of death in his apartment at the Hotel Dimeling."

Mr. and Mrs. Helmbold as has been their custom for their home in Curwensville when winter set in and took up their quarters at The Dimeling. They spent the Christmas with their son in Pittsburgh, Mrs. Helmbold remaining a few days visit while her husband returned to his here.

Mr. Helmbold retired as usual last night and as he had been accustomed to getting up between 7 and 8 o'clock each morning when the maid in charge of the floor on which the apartments are located reported to the landlady that his room was still locked at 10:30 a. m., Helmbold was notified and on going to the room found the door locked from the inside with the night latch. Realizing that something was wrong, Mr. McGinnis forced the door and discovered Mr. Helmbold lying on the floor of the bathroom in an unconscious condition.

Dr. Stewart, the house physician, was summoned and found that Mr. Helmbold had suffered a heavy stroke of apoplexy and that his recovery from its effects was very doubtful. The doctor has been in constant attendance, being called and shortly after dinner stated that the patient commenced to show signs of rallying but he has thus far failed to regain consciousness.

Mrs. Helmbold, who is expected home tomorrow after an appraisal of her husband's condition and with her son will arrive in Clearfield this evening.

Mr. Helmbold had been in failing health for several years but of late had appeared to be on the mend and his sudden fall was a sad shock to his friends and business associates.

**FREE AFTER FORTY
YEARS OF LIFE
IN SOLITUDE**Jesse Pomeroy, Noted Criminal
Holds Record For Longest
In Solitary Confinement

CONVICTED OF TWO MURDERS

Boston, Mass., Jan. 5.—After more than 40 years spent in solitary confinement, Jesse Pomeroy, the noted "lifter" at the Charleston prison, is to be permitted once again to look upon the faces of his fellow men.

As a result of many years of public agitation a special council committee was appointed some time ago to investigate Pomeroy's case. This committee has now prepared a report to the governor recommending that certain privileges be granted with a view to ameliorating the condition of the celebrated prisoner's incarceration.

Jesse Pomeroy is considered the most extraordinary life prisoner in confinement in the United States. So far as is known he is the only man in the entire history of the country who has spent 40 years, or even an appreciable portion of that period, in solitary confinement. The experience of his imprisonment were recounted by the court which sentenced him. His cell is undoubtedly the strangest in America. Despite this fact, on a dozen occasions since his entrance there, with supernatural cunning, he has devised plans of escape, and in view of constant watching has managed to carry them out to an advanced stage of execution.

The history of the crimes of the door of Pomeroy is one of the most atrocious, committed by a boy only 15 years of age. Born in Connecticut in 1850, according to his own story his life, Pomeroy was convicted of two brutal murders in 1874 and 1876, and he began his sentence in prison.

It was in 1872 that he married his mother to South Boston, the site of most of the crimes laid at his door. At that time he had already established a reputation as a "lifter" and had served some time in a penitentiary.

J. A. Stock left today for the funeral of a friend.

Vincent J. Stock will leave tonight for Detroit, Mich., where he will enter the Michigan State Normal school.

**Women Government Takes Oregon

Councilmen of Sterner Sex

Umatilla Ore., Jan. 5.—(By United Press)—Umatilla's city government passed this week into the hands of a woman administration. From Mrs. Laura Starcher, mayor, down to the police department all officials are of the gentler sex except two lonely males who must serve as "holdovers" in the council.

E. E. Starcher, railroad telegrapher, handed over the robes of his office to his wife. He vacated the little room where he has directed the town's destinies for many months, and the madam took the helm. One of Mrs. Starcher's first acts will be to name the woman police force.

"A woman can do the work," said Mayores Starcher, "better than any man." She added that if any obstreperous lawbreaker invaded Umatilla during the female regime, a man or something would be designated to handle the situation, under the chiefess.

On taking office Mrs. Starcher promised the city a business administration, and said she would endeavor to make her husband's record fail to attempt.

FAIR PLAY

The annual license court of Clearfield will convene in the near future and before it is over the customary quarrels and misunderstandings will take place between those who favor and those who are opposed to the granting of license. So far as the petitioning for license and remonstrating against it is concerned the rights of both parties are equal in the wording of the law. A careful reading of the following paragraph of the Brooks High License Law will show this;

"The said court of quarter sessions shall hear petitions from residents of the ward, borough or township, in addition to that of the applicant, in favor of and remonstrance against the application for such license, and in all cases shall refuse the same whenever, in the opinion of the court having due regard to the number and character of the petitioners for and against such application, such license is not necessary for the accommodation of the public and the entertainment of strangers and travelers etc."

The law plainly gives those in favor of the license the right to sign the petition of the saloon keeper and likewise the law gives every other resident of the ward, borough or township the right to oppose the granting of any particular license by signing a remonstrance. Why then should there be any ill feeling over the manner in which a man acts with regard to the license question? If feeling simply widens the breach between the temperance forces and those inclined to believe that the regulation of the liquor traffic according to the Brooks law is the proper method. As much as we may differ on the question, personal enmity and retaliation should not enter into the question.

Unfortunately there are a few engaged in the liquor business who retaliate in a business way against men who sign a remonstrance. There are business men in Clearfield who are afraid to refuse to sign a petition for license for business reasons. Likewise there are men in the temperance forces who do not hesitate to insult men because they do not radically oppose the liquor traffic. Many a man could be persuaded to sign a remonstrance by mild reasoning who will balk and take the neutral attitude because insulting and coercive measures have been used to get his signature.

The purpose of this editorial is to point out the rights of both sides to the controversy. A great many people think that the signer of a remonstrance has no standing under the law and that the remonstrance is an instrument devised by the temperance forces to embarrass and hamper license court proceedings. Such is not the case. The right to remonstrate is the only right given to temperance adherents under the Brooks law and that right shall not be bridged.

Another purpose of this editorial is to preach fair play to all. We have heard saloon keepers damn residents because they exercised their rights under the law. We have heard cranks on the temperance question criticize men because they favored the granting of license and indulge in personalities as a result of it. On all questions men should concede to others the right to their opinions and their rights under the law. A friendly discussion over the merits of license and no license will bring definite results quicker than a warfare of words, retaliation and insulting personalities.

An Inside Bath
Makes You Look
and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with a bad breath coated tongue, nasty taste or have a dull, aching head, shallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

CENTENARY OF NOTED NAVAL
OFFICER

Washington, D. C., Jan. 5.—In naval circles here today was recalled as the centennial anniversary of the birth of Commander Richard Wainwright, one of the famous officers in the early days of the United States navy, and father of Admiral "Fighting Dick" Wainwright. Commander Wainwright was born at Charleston, Mass., Jan. 5, 1817, and began his career as a midshipman in the navy at the age of 14. Early in the civil war he was assigned to the command of the "Hartford" for his gallantry in the attack on New Orleans and in the passing of the Vicksburg batteries, Commander Wainwright was warmly praised by Admiral Farragut. His death occurred while he was still in command of the "Hartford," near New Orleans, August 10, 1862.

QUIT MEAT WHEN
KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the wastes and poisons from the blood, and then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Subscribers to the Junior Chautauqua winter club are asked to make their January payments before January 8th, to any of the following committees.

AMERICA'S GREATEST AUTO SHOW

New York, Jan. 5. — America's greatest exhibition of motor cars and accessories, the seventeenth annual automobile show under the auspices of the National Automobile Chamber of Commerce, will open at Grand Central Palace tomorrow afternoon and continue for one week. While large automobile shows were held in London, Paris and Berlin before the war, the New York exhibition, it is claimed, will surpass them all in number of exhibitors. The exhibitors will be American manufacturers exclusively. While the show will mark the introduction of a number of new cars, mostly in the moderate price class, the main group of exhibitors will be composed of the companies whose activities have been the foundation upon which the industry has been developed.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, colds of the chest (it often prevents pneumonia).

One of the Progress carriers has been off duty on account of sickness. The vacancy was filled by Murry Clark. Be kind to the boys as they make every effort to get your paper to you in good time considering the lateness of the train every evening.

The Bridgeport school in Pike township, with Miss Olive King as teacher gave a rather interesting program the other evening consisting of drills, recitations, reading and dialogues, after which each scholar received candy and oranges as a Christmas treat. The school is progressing nicely and much credit is due Miss King for her pleasing manner and kind disposition toward her pupils.

This January Clearance is an event of the utmost importance. It should prove tremendously interesting to every person who has winter needs to purchase and who realizes the need for practising economy. We make this statement fully realizing the broad scope of our claim. Thousands upon thousands of dollars of goods involved in this event cannot possibly be bought in the wholesale markets at prices that are now in force. It is unnecessary for us to go into further details. The mere fact that we announce this event and make mention here that values of a most extraordinary nature may be found in the very merchandise which you are planning to purchase will be all that will be needed to effect a quick and absolute clearance of the merchandise involved.

This January Clearance, then, provides you the opportunity to save enough money to counteract the increased costs you are paying for other needs.

An Event of Timely Importance. An Event Providing The Unexpected Values In Dependable Furs

In announcing this fur sale we are simply following our merchandising policy. It is not necessary to mention here that furs have been advancing in price for the past year. The cause of this is very simple. The European countries are demanding great quantities of furs for use of their armies. Then again, there have been no furs imported to amount to anything in consequence of which America has been compelled to depend upon her own supplies to a very large extent. This then has meant a scarcity of dependable furs. However, in the face of these conditions we have been able to secure a stock of furs equal to any in past seasons. Here are fur scarfs, muffs and fur coats in a splendid collection of styles and in the favored furs of the season at prices that mean Sure, Substantial and Solid Savings. Below we list a few items.

\$35.00 Jap mink sets	\$19.75	\$30.00 Natural cat lynx set	\$14.95
